USMLE®

United States Medical Licensing Examination

KAPLAN® MEDICAL

ABOUT LOGIQUEST

LogiQuest MedXpert Consultants specializes in delivering top-tier preparatory solutions for aspiring medical professionals pursuing the USMLE, supporting them from the earliest stages of preparation through their residency journey.

ABOUT KAPLAN

Kaplan is the world leader in test preparation and has served millions of students since its founding 80 years ago. Kaplan offers preparation for more than 90 standardized tests for college and graduate school admissions and English-language proficiency, as well as academic tutoring and pre-college test prep. In addition, Kaplan Test prep offers programs to prepare professionals for a variety of licensing and advanced designation exam as well as continuing education in various fields. Kaplan's depth of knowledge experience, resources and expert instructors are helping students get higher scores.

ABOUT USMLE

USMLE expanded as United States Medical Licensing Examination, is one of the toughest license tests in the world. Sponsored by FSMB (Federation of State Medical Boards) & NBME (National Board for Medical Examiners), USMLE is conducted in three steps and consists of four different examinations.

Broadly USMLE is divided in to three Steps:

Step 1: A test of Basics Sciences
Step 2: A test of Clinical Knowledge
Step 3: A two day comprehensive test with emphasis on Patient Management.

HERE IS A BREAKDOWN OF USMLE STEPS

STEP	TIME	SYLLABUS	NO. OF QUESTIONS	PASSING SCORE
Step 1	7 hours exam +1 hour break	Anatomy, Physiology, Biochemistry, Pathology, Microbiology, Pharmacology & Behavioral Science	280	PASS/FAIL (No Negative Marking)
Step 2 CK	8 hours exam +1 hour break	Internal Medicine, Pediatrics, Psychiatry, Obstetrics & Gynecology & Surgery	318	218 (No Negative Marking)
Step 3	Day 1: About 7 hours including breaks	Internal medicine, Pediatrics, Psychiatry, Obstetrics/ Gynecology & Surgery, Epidemiology/Biostatistics, Patient Safety & Ethics	233	200 (No Negative Marking)
	Day 2: About 9 hours including breaks		180 & 13 CCS*	

OET (Occupational English Test)

OET SUB-SECTIONS	LISTENING	READING	WRITING	SPEAKING
Duration	45 Minutes	60 Minutes OET Sub-Sections	45 Minutes	Reading
Description	3 Parts-42 Questions	3 Parts-42 Questions	Letter writing (Professional Specific)	Role-Play (Professional Specific)

PREP AT OUR NEW YORK CENTER

WHAT TO EXPECT

+ Face to face advising and study plan support
+ Weekly workshops on critical thinking and career advancement
+ Residency timeline and application support
+ Easy networking with fellow students and physicians
+ U.S. experience opportunities that strengthen your application
+ Dedicated attention from Kaplan Medical's expert faculty

IN CENTER PROGRAM SUCCESS IS ACHIEVED BY

+ Extensive, in-person study of Kaplan's USMLE materials through classroom lectures and consistent assessment delivered in our training lab.
+ Attending Critical Thinking Seminars, Weekly Advancement Workshops, and Group Advising Sessions
+ One-on-one meetings with your academic advisor to focus your study and assess progress at least once a month

Map out your residency journey and maximize your savings. Immerse yourself in the United States for up to **21 months** at our New York Center.

SAVE ON YOUR PREP WITH OUR MULTI-STEP PROGRAM

MULTI-STEP PACKAGE
Step 1 In Center + Live - 12 Months
Step 2 CK In Center + Live - 9 Months

IN CENTER STUDY PHASES

1 Review

Start your learning with subject-based review using the guided study plan provided by your advisor (it includes books, assessments and video exercises). Attend weekly group seminars and meet with your advisor to check progress.

2 Remediate

Integrate the subjects as they are tested on the exam during your Live Lecture program. Re-review foundational content as needed to cover any gaps in knowledge.

3 Practice

Use Kaplan's Qbank and take full-length assessment exams for realistic practice to be best prepared for exam day!

What are the Live Lectures?

The Live Lectures are a component of your In Center program. This is an intense high-yield review of the most heavily tested topics and concepts with our world renowned faculty. Because your live classes integrate key concepts, students should prepare for a minimum of 3 months to ensure they have the foundational level of knowledge needed for the best outcomes.

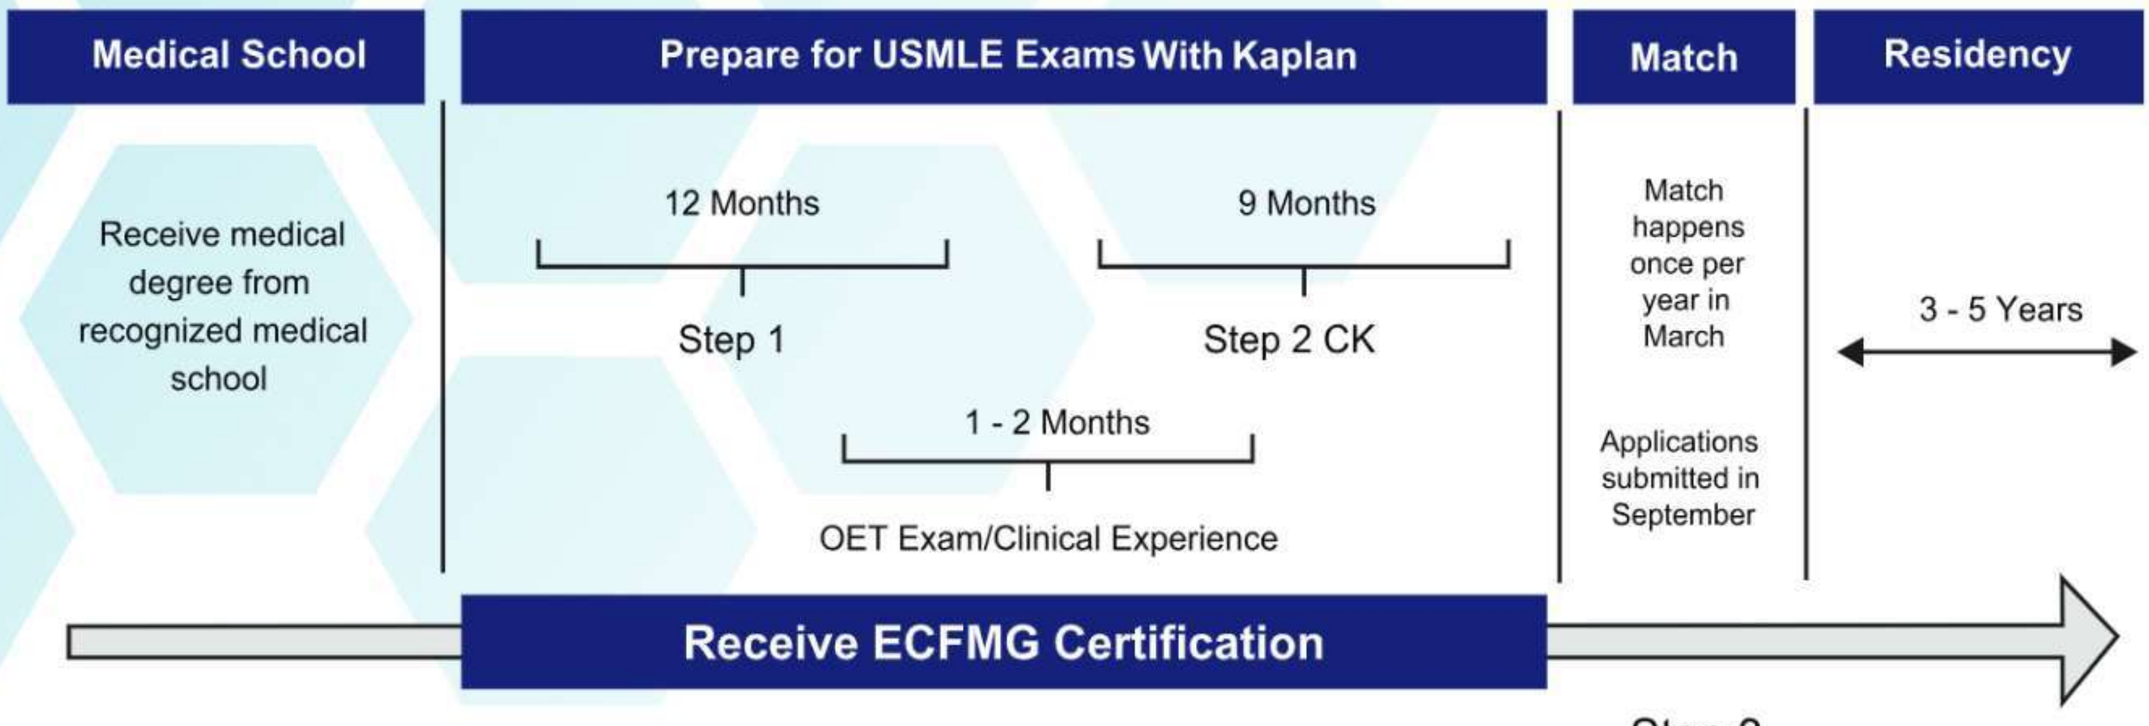
TIMELINE FOR IMGS



PROGRAM OPTIONS

Step 1 in Center Live - 12 months
Step 2 CK in Center live - 9 Months

5 STEPS

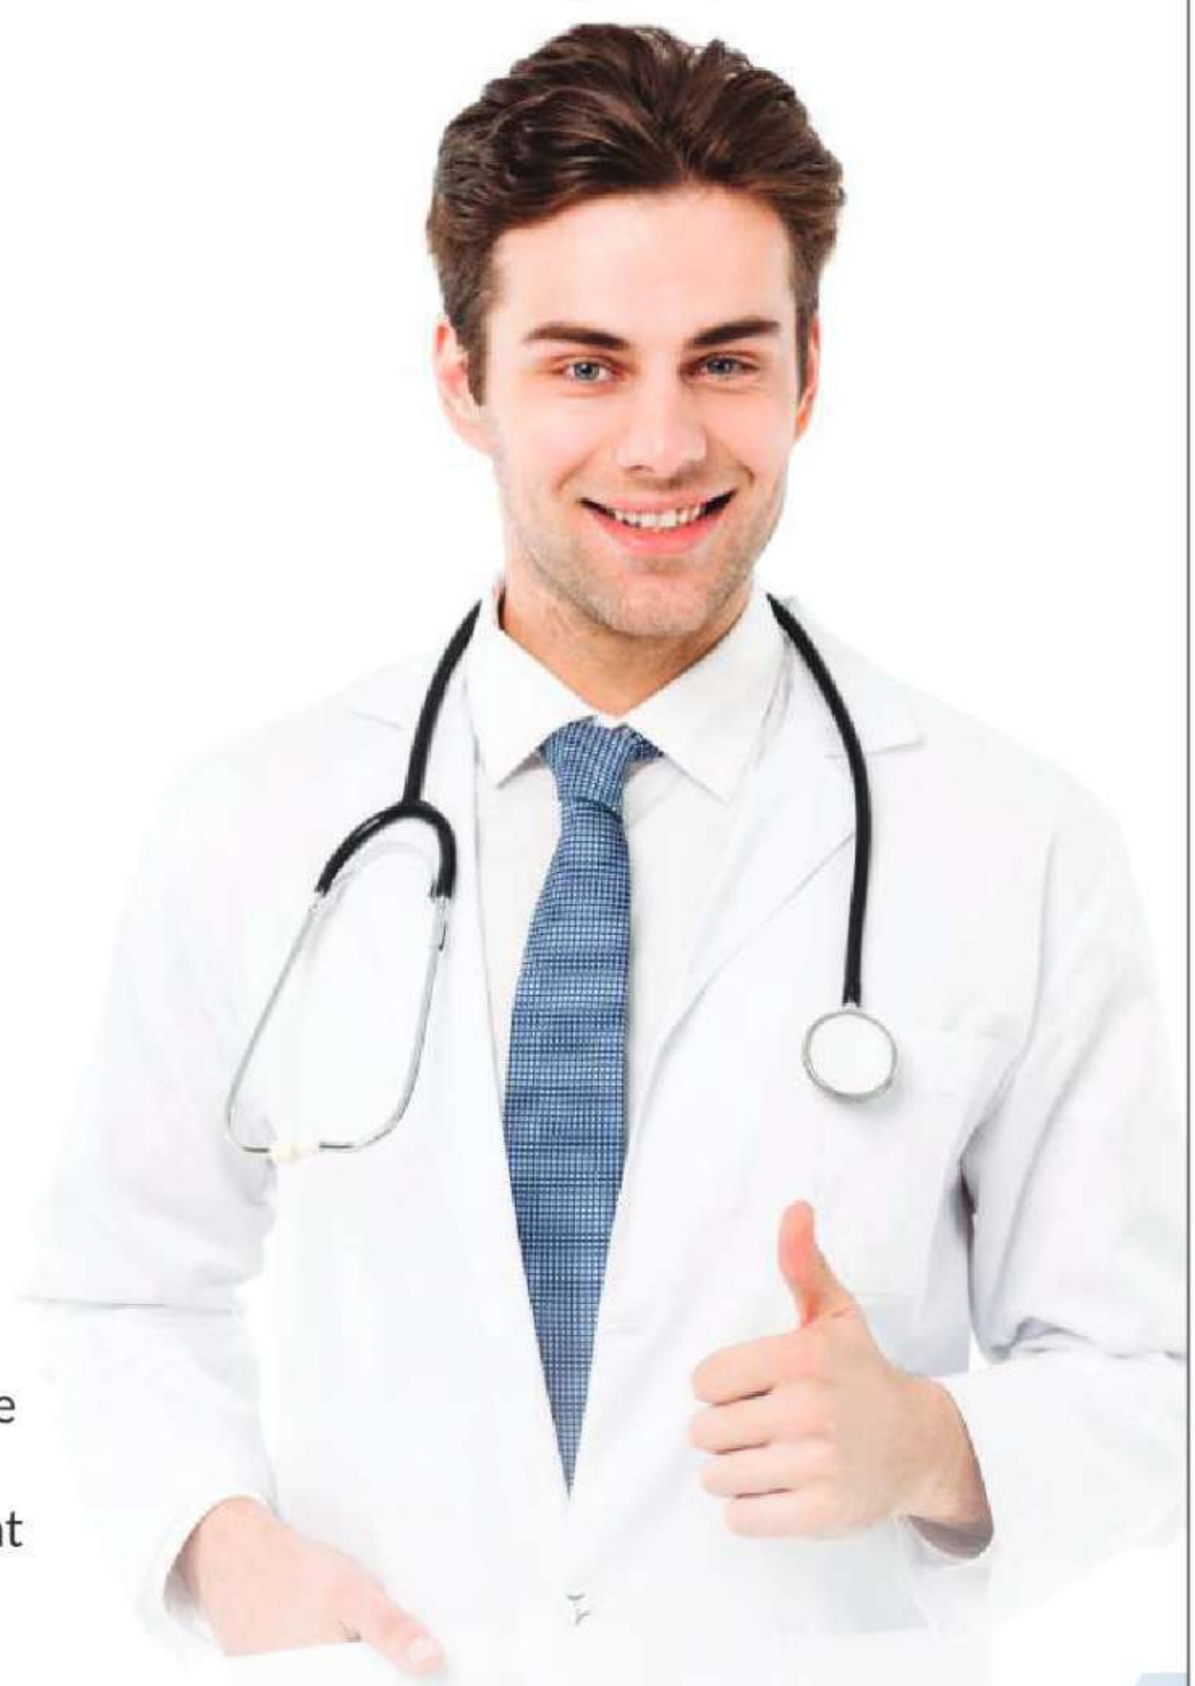
Step 1. Select your program start date
Step 2. Select your lecture schedule
Step 3. Finalize documents for your I-20
Step 4. Apply for Visa
Step 5. Arrive in New York and Begin your Program

DON'T FORGET

Ÿ Students who come on an F-1 visa are allowed to enter the U.S. up to 30 days before the start date listed on their I20.

Ÿ F-1 students should allow enough time to enroll in their course, provide the necessary documents, have their visa appointment, and arrive in the U.S. Students should select a start date no sooner than at least4 months from the time they enroll.

Ÿ Students should plan their Live Lectures towards the middle/second half of their program for best outcomes.



**Recommended Center Start Date*

IN CENTER - WEEKLY WORKSHOPS TO MAXIMIZE YOUR SUCCESS

With Kaplan's weekly structured seminars, you'll be regularly interacting with students and advisors while preparing for residency.

CRITICAL THINKING SESSIONS

Weekly, 2-hour, team-based sessions that focus on problem-solving and critical thinking.

- Autoimmune Disease
- Lower GI Disorder
- Vasculitides, Cardiomyopathy
- Stroke
- Adrenal Disorders
- Arthritis
- Coagulation Disorders
- Glomerular Diseases
- Meningitis
- Arrhythmia, Leukemia & Lymphoma
- Obstructive & Restrictive Lung Diseases
- Diabetes Mellitus
- Anemia
- Valvular Heart Diseases
- Congenital Heart Disorders
- Psychotic & Substance Abuse Disorders

Sessions are divided into a pre-clinical (for those preparing for Step 1) and a clinical emphasis (for those preparing for Step 2 CK or Step 3).

WEEKLY ADVANCEMENT WORKSHOPS

Achieve the best USMLE score possible with weekly, 1-hour discussion-based sessions for all In Center students.

Session Structure

Introductions
New students introduce themselves

Check-in

Each student shares a challenge or success they've experienced since the last session

Didactic

Facilitator gives a short overview of the week's topic

Challenge Questions & Cases

One student reads the first challenge question or case aloud, and the group engages in a discussion to present multiple solutions

Wrap-up

Students summarize 2 to 3 key takeaways from the session

Sample Monthly Topics *

January Assessing your goals and values	February Math and statistics fundamentals	March What you need to know about LORs	April Cultural competence
May Drafting a personal statement	June Critiquing a personal statement	July Selecting specialties	August How to prepare for your interview
September How to deal with red flags	October The challenging patient encounter	November Presentation skills	December Alternative practices for stress reduction

CLINICAL OPPORTUNITIES

LOGIQUEST

AMOPPORTUNITIES

AMOpportunities

AMOpportunities (AMO) connects medical students, graduates, and professionals with U.S. clinical experiences. Our platform offers the opportunity to explore and apply for clinical experiences at over 350+ clinical sites across more than 70 medical specialties and subspecialties.

AMO provides exceptional support services such as visa and housing assistance and has hosted more than 3,000 international medical students and graduates. We are paving the way for the future of healthcare education, breaking down not just borders but the traditional model of clinical education.

HOW IT WORKS

The clinical experiences we offer are made possible by partnerships with various U.S. physicians, hospitals, and medical institutions. Our clinical experiences are anywhere from 4-weeks to 6- months and provide visitors the option to select from either a hands-on experience or an observership. No matter your area of interest or medical school requirements, we have just the experience for you!

THE BENEFITS

A clinical experience is an educational opportunity generally used to fulfill school requirements or obtain letters of recommendation that are required to apply for residency in the U.S. Individuals taking part in multiple AMO clinical experiences can earn an LoR from each individual preceptor.

Aside from providing an LoR or fulfilling school credits, clinical experiences can help you:

- Gain exposure to medical skills and knowledge that may be tested during the USMLE
- Become familiar with the U.S. healthcare systems
- Learn and practice new medical terminology
- Create meaningful personal and professional connections
- Improve English fluency
- Experience a new culture

Raad

Dermatology clinical experience

at Broward Dermatology & Cosmetic Specialist

Fort Lauderdale, Florida

My experience was exceptional in all ways. I give a lot of credit to my preceptor, his staff, and the AMO team members for making it as great as it was!

AMO ADVANTAGES

AMO offers unmatched service and support through our team of advisors and coaches. Not only do we offer assistance that will help you choose the best clinical experience, we will also help you with enrollment and orientation. AMO provides assistance with securing a visa, housing, transportation, and insurance. We're with you every step of the way!

WE MAKE APPLYING EASY

Applying for a clinical experience with AMO is simple and completely free! In most cases, only a current resume/CV and copy of your passport are required. The online application allows you to select your clinical experience, submit documents, and plan your rotation all from your AMO Dashboard. In most cases, applicants are notified of acceptance in as little as 48 hours. AMOpportunities sends your information to your physician upon reservation so you can arrive on your first day knowing all credentialing and document submission are complete.

YOU CAN RESERVE WITH CONFIDENCE

We offer transparency. Individuals who apply for our clinical experiences have access to all the information they need to make an informed decision. AMO Advisors are available to help with recommendations and will answer your questions, helping you confidently select the perfect rotation! Additionally, you have access to the clinical experience schedule, the mapped location(s), activities, visitor reviews, and university, residency, and hospital affiliations.

No other clinical experience provider gives you as much information as AMOpportunities.

WE PROVIDE TAILORED RECOMMENDATIONS

AMOpportunities regularly provides suggestions for clinical experiences to those who create an online account. These suggestions are based on an individual's preferred specialty, location, and month they plan to reserve. New experiences with top academic physicians and institutions are updated and added regularly.

THE PERFECT ROTATION

We aim to provide the international medical community with access to high-quality medical education in the United States. To be eligible, you must be a current medical, nursing, or dentistry student. We also accept recent graduates and professionals. Proof of eligibility is required in the form of a letter of good standing from your school or an applicable degree.

DETERMINING CREDENTIALING

Your institution must determine if AMO's clinical experiences can be used for credit. AMO will work with your school to see if it is possible to meet school requirements. If you intend to use our clinical experiences for credit, please confirm they meet your school requirement before reserving, as AMO does not offer refunds for cancellations.

HANDS-ON CLINICAL EXPERIENCES VS. OBSERVERSHIPS

AMO offers both hands-on clinical experiences and observerships. Hands-on clinical experiences involve patient-focused clinical exposure. Visitors have basic interactions with patients, which may include recording medical histories and performing physical examinations. Hands-on does not mean the visitor is allowed to function as a licensed physician.

Observerships do not include patient contact. Visitors gain exposure to the U.S. medical system as they observe their supervising physician. Visitors may participate in case presentations or help make differential diagnoses if the supervising physician allows it.

Regardless of the type of clinical experience a visitor takes part in, he or she must adhere to all HIPAA and Joint Commission regulations and state regulatory guidelines. It is the responsibility of each visitor to be responsible for their actions. At no time should a visitor engage in the unsupervised practice of medicine or represent him or herself as a licensed professional. Doing so is considered a felony criminal offense.

Revati

Ophthalmology clinical experience

at Long Island Vision Experts

Rockville Center, New York

I really admire AMO for providing such an amazing experience. They gave me guidance at every step, from applying for a visa to acquiring housing in the U.S. I had many questions, and AMO provided prompt answers and solutions. They were very supportive. My preceptor was extremely polite, patient, and friendly. He had an amazing sense of humor and made learning such a fun experience. Overall, it was a veryeducational program and AMO made my rotation worthwhile.

INPATIENT AND OUTPATIENT

Programs are listed as either inpatient, outpatient, or inpatient/outpatient, which is a combination of the two. The inpatient clinical experiences occur in a hospital setting where visitors follow the supervising physician as they complete their rounds. Outpatient clinical experiences take place in a clinic or at the physician's private practice. An Inpatient/Outpatient experience will consist of both clinic and hospital exposure. In this type of rotation, you gain training in both settings based on patient load. Many clinical experiences are a combination of inpatient and outpatient per U.S. medicine requirements in certain medical specialties

VIRTUAL CLINICAL EXPERIENCES

In addition to our in-person observership and hands-on clinical experiences, AMO offers virtual clinical experiences. These programs allow participants to learn about the U.S. healthcare system and earn an LoR from wherever they are in the world. Virtual clinical experiences are a great option for those looking to save on transportation/living expenses and avoid the hassle of securing a visa and the immunizations needed for in-person experiences.

Tele health is becoming increasingly commonplace in medicine as it is a safe and convenient method of providing care to patients. Gaining experience with tele health medicine early can help individuals stand out from their peers and gain new skills, which may include troubleshooting common technology issues and connecting with patients virtually.

PLANNING YOUR VISIT TO THE U.S.

BUDGETING FOR THE CLINICAL EXPERIENCE

AMO rotations starts at $999. This price is based on location, experience type, and the affiliated institution or hospital. The experience fee covers physician payment, coordinating services, and administrating fees.
It does not cover:

- Housing
- Travel
- Food
- Visa fees
- Insurance

A reservation deposit is collected up front to secure your clinical experience, while the remaining fees are due 45 days prior to your start date to complete enrollment.

Priscilla
Pathology clinical experience
at Saint Anthony Hospital
Chicago, Illinois

AMO provides quality rotations that give you excellent hands-on experience that will make you look like a more competitive residency applicant. You also get to build strong relationships with your preceptors and attending, get strong letters of recommendations, and make great connections for residency in the U.S.A.!

AMO treats you like family!

SUBMIT REQUIRED DOCUMENTS

To attend a clinical experience, AMOpportunities requires you to submit:

- Resume or CV*
- Proof of eligibility*
- Passport*
- Immunizations
- Malpractice Insurance (program dependent)*
- Health Insurance
- Visa

*Only required documents for virtual clinical experiences/tele-rotations

We also require proof of English proficiency. If your medical school teaches in English, then a letter stating this from a dean or professor will suffice. Otherwise, you can submit the TOEFL, IELTS, or other equivalent. If neither of these are applicable to you, but you are proficient in English, you may schedule a short phone call with AMO to confirm your English proficiency.

OBTAIN A VISA

For those who do not already have a visa or who are not from a country where a waiver is applicable, we recommend applying for a B1 visa. You may join under another eligible U.S. visa, however, we only provide support for B1 visas. AMOpportunities provides placement letters upon acceptance and invitation letters upon reservation.

In the case that an individual is denied a visa, we can postpone the clinical experience and the individual can reapply with a letter directly from the hospital. For those who are not planning to try for a visa again, we will provide a half refund in the amount paid for the reservation. Historically, 90 percent of our students secure visas with their first application.

SECURE HOUSING

While it is the visitor's responsibility to secure housing, AMOpportunities can provide suggestions for companies to rent through based on the clinical site's location.

Your AMO Coach will provide you with information for our partner homestay companies American Homestay Network and Sara's Homestay. These companies work with you to secure housing with a kind and welcoming host located near your clinical experience site. Another option is Airbnb, which provides you with more flexibility. You can search with adjustable filters that account for certain preferences. Some renters provide guests with an extended stay discount.

We do our best to locate accommodations and third-party vendors to give the closest and most reasonable options. The trainee must reserve and pay for the housing themselves. As you search for your stay, you can always ask your AMO Coach for guidance.

OBTAIN HEALTH AND MALPRACTICE INSURANCE

Clinical experiences require U.S. health insurance that can be obtained easily through a vendor. AMO partners with Visitors Coverage to provide health insurance options. Select programs require malpractice insurance. AMOpportunities provides medical students with the opportunity to be under our malpractice insurance coverage for $199.
